What is your teacher like?

In Part 2 you need to speak about a situation for about two minutes. *I'm going to describe a situation to you; you are arranging a gap year next year and have decided it would be a good idea to learn something new. You want to take up a new course, which would be your preferred choice?*

In this part of the exam you are going to speak on your own for about 1 minute. I'd like you describe the photos.

In the final part of the exam you are going to discuss a topic for about 4 minutes:

1. What do you like most about learning English?
2. How long have you been studying English?
3. Are you good at learning languages?
4. Do you ever read English books, magazines or websites?
5. What do you find most difficult about learning languages?
6. Tell us about your English teacher

Thank you, that's the end of the test.
